9.1 Options are contracts that give the buyer the right, but not the obligation, to buy (in the case of a Call Option) or to sell (in the case of a Put Option) a specified FX/CFD at a specified price (the "Strike") at a specified time and date (the "Expiration"), from or to the seller of the option. These are commonly known as European style vanilla options.

PLATFORM SERVICES GENERAL TERMS AND CONDITIONS

9.2 The proceeds of the purchase or sale of an Option (the "Cost", or "Premium") will be immediately debited or credited to the cash balance of the account. At Expiration, Options that are in the money will be automatically closed out at intrinsic value, that is, in the case of Call Options, the amount by which the closing price of the specified FX/CFD exceeds the strike price, and in the case of Put Options, the amount by which the Strike exceeds the closing price of the specified FX/CFD. For long Call and short Put positions, the closing price will be the prevailing bid price of the underlying FX/CFD at Expiration; and for short Call and long Put positions, the closing price will be the prevailing ask (offer) price of the underlying FX/CFD, as determined by RaiseFX in its sole discretion. Options that are not in the money will expire worthless.

9.3 The Customer acknowledges, recognizes and accepts that RaiseFX quotes variable spreads on Options. The Customer is specifically made aware that variable option spreads are affected by actual market conditions, which are beyond RaiseFX's control. RaiseFX does not guarantee any maximum or minimum quotable option spreads. There may be times when Options quotes are not available in some underlying FX/CFDs.

9.4 We allow you to perform various transactions, including in respect of options based on various indices that shall be defined by us from time to time (for example, index rates and stock and option rates), and to receive financial information and various other services as we shall determine in our sole discretion. Prior to effecting any transaction, we advise you to read the explanations that may be found on the website regarding each type of transaction. The rules of trade are set exclusively by RaiseFX.

9.5 We may make available the current price applicable to a share or index, and offer you the opportunity to submit a put or call position in respect of such share. Each position shall be for a specified expiry time. We expect that the current prices will be reasonably related to the actual

10.13.4 Where Customer does not wish RaiseFX to deposit funds with a particular credit institution we will return such funds to Customer as soon as possible.

10.14 Pursuant to section 10.5 Customers trading on the RaiseFX platform agree to the transfer of full ownership of funds to RaiseFX for the purpose of securing or otherwise covering a required margin and as such the required margin will no longer be treated as belonging to the Customer. 14.10.1 A daily financing charge may apply to each Forex, CFDs, Options and Spread Betting open position at the closing of RaiseFX's trading day with regards to Forex, CFD, Options and Spread Bet.

14.10.2 If such financing charge is applicable, it will either be requested to be paid by Customer directly to RaiseFX or it will be paid by RaiseFX to Customer, depending on the type of Forex, CFDs, Options and Spread Betting and the nature of the position Customer holds.

14.10.3 The method of calculation of the financing charge varies according to the type of Forex, CFDs, Options and Spread Betting to which it applies. Moreover, the amount of the financing charge will vary as it is linked to current interest rates (such as LIBOR).

14.10.4 The financing charge will be credited or debited (as appropriate) to Customer's account on the next trading day following the day to which it relates.

14.10.5 RaiseFX reserves the right to change the method of calculating the financing charge, the financing rates and/or the types of Forex, CFDs, Options and Spread Betting to which the financing charge applies.

14.10.6 For certain types of Forex, CFDs, Options and Spread Betting, a commission is payable by the Customer to open and close Forex, CFDs, Options and Spread Betting positions. Such commission payable will be debited from Customer's account at the same time as RaiseFX opens or closes the relevant Forex, CFDs, Options and Spread Bets.

14.10.7 Trades in CFDs and Spread Betting are linked to the market price of a certain base asset, including the market price of future contracts. A few days prior to the expiration date of the base asset to which the CFD and Spread Betting is linked, the base asset shall be replaced with another asset, and the quotation of the CFD and Spread Betting shall change accordingly.

14.10.8 CFDs and Spread Betting does not have an expiration date.

PLATFORM SERVICES GENERAL TERMS AND CONDITIONS

14.10.9 Trades in CFDs and Spread Betting are continuous and the base assets to which they are linked vary from time to time.

14.10.10 RaiseFX reserves the right to determine the base asset to which CFDs and Spread Betting is linked, the date of replacement of the base asset, and the replacement conditions.

14.10.11 Following the replacement of the base asset, the quotation of the CFDs and Spread Betting shall be adjusted, and the Customer's account shall be credited or debited, as applicable, in accordance with the difference in quotations created due to the replacement of the base asset.

14.10.12 The difference in quotations between the base assets is affected by the difference in rates between selling and buying of such assets in the market, and therefore the revaluation of selling and buying transactions shall be in different values.

14.10.13 Customers will incur costs in relation to the Spread Cost in closing the Old contract and Opening the New Contract and a Standard Overnight Interest charge.

14.10.14 In most cases, the debits shall be higher than credits.

14.10.15 Any open transaction held by Customer at the end of the trading day as determined by RaiseFX or over the weekend, shall automatically be rolled over to the next business day so as to avoid an automatic close and physical settlement of the transaction.

14.10.16 The Customer acknowledges that when rolling over such transactions to the next business day, overnight interest may be either added or subtracted from Customer's account with respect to such transactions.

14.10.17 The overnight interest amount shall be determined by RaiseFX from time to time, in RaiseFX's absolute discretion.

14.10.18 The Customer hereby authorizes RaiseFX to add or subtract the overnight interest to or from the Customer's account for any open transaction that have accrued overnight interest, in accordance with the

18.4 RaiseFX shall be entitled to setoff Customer's liabilities under this section from Customer's account.

19. MARKET ABUSE AND MANIPULATION

19.1 PROHIBITION ON ARBITRAGE AND MANIPULATION

19.1.1 RaiseFX does not permit the practice of arbitrage when trading and strictly forbids any form of manipulation of its prices, execution, and platform or making transactions based on errors, omissions or misquotes on the RaiseFX platform.

19.1.2 Price latency, connectivity delays, and price feed errors sometimes create a situation where the prices displayed do not accurately reflect market rates. The concept of arbitrage and "scalping", or taking advantage of these Internet delays, cannot exist in an OTC market where the client is buying or selling directly from the market maker.

19.1.3 Any transactions that rely on price latency or price feed errors may be subject to intervention which includes the right to void any transactions which RaiseFX has determined to be a result of any of these practices, revocation of profits, widening of spreads, block of trading and any other necessary corrections or adjustments on the account without prior notice.

PLATFORM SERVICES GENERAL TERMS AND CONDITIONS

19.1.4 If RaiseFX suspects or has reason to believe that Customer has abused the terms and conditions by hedging positions internally (using other trading accounts held with RaiseFX) or externally (using other trading accounts held with other brokers), RaiseFX reserves the right to cancel any trades or profits associated with the Customer's account(s).

19.2 MARKET ABUSE

19.2.1 RaiseFX may hedge our liability to you by opening analogous positions with other institutions or in the underlying market. The result of our doing this is that when you trade with us your trades can, through our hedging, exert a distorting influence on the underlying market for that index, in addition to the impact that it may have on our own prices. This creates a possibility of market abuse.

19.2.2 Customer represents and warrants, and agrees that each such representation and warranty is deemed repeated each time Customer opens or closes a position that:

(a) Customer will not place and has not placed a trade with us relating to a particular index or any other CFD price if to do so would result in Customer, or others with whom Customer is acting in concert together, having an exposure to the price of the underlying financial instrument which can create a situation of market abuse.

This exposure can be equal to or exceeding the amount of a declarable interest in the relevant financial instrument. For this purpose, the level of a declarable interest will be the prevailing level at the material time, set by law or by the stock exchange(s) or other exchange upon which the underlying financial instrument is traded; and

(b) Customer will not place and has not placed a trade with us in connection with:

- (i) a placing, issue, distribution or other analogous event;
- (ii) an offer, take over, merger or other analogous event; or
- (iii) any other corporate finance style activity, in which Customer is involved or otherwise interested; and

PLATFORM SERVICES GENERAL TERMS AND CONDITIONS

(c) Customer will not place or close a position and Customer will not place an order that contravenes any primary or secondary legislation or other law against insider dealing or market manipulation. The Customer agrees that RaiseFX may proceed on the basis that when Customer opens or closes a position or places an order on a share price, Customer may be treated as dealing in securities within the meaning of the relevant statutes or regulations.

19.2.3 In the event that (a) Customer places or closes any trade or places an order in breach of the representations and warranties given, or RaiseFX has reasonable grounds for suspecting that Customer may have done so, RaiseFX may at our absolute discretion and without being under any obligation to inform Customer of our reason for doing so close that trade and any other trade or trades that you may have open at the time, if applicable, and also at our absolute discretion cancel any trades or profits associated with Customer's account(s)

19.2.4 The Customer acknowledges that trade are speculative arrangements and Customer agrees that Customer will not enter into any transactions with us in connection with any corporate finance style activity.

19.2.5 Customer acknowledges that it would be improper for Customer to deal in the underlying market if the sole purpose of such a transaction was to impact on our bid or offer prices, and Customer agrees not to conduct any such transactions.

20. EXECUTION OF ORDERS, STOP AND LIMITS

20.1 RaiseFX will use commercially reasonable efforts to complete all orders which it may, in its sole discretion, choose to accept in accordance with the oral or written or computer instructions of Customer.

PLATFORM SERVICES GENERAL TERMS AND CONDITIONS

20.2 RaiseFX reserves the right to refuse to accept any order.

20.3 RaiseFX may, at its sole discretion, allow Customer to specify a closing price for a transaction at the trading platform through a “Close at Loss” and “Close at Profit” order, subject always to the terms of this Agreement and any other terms and conditions RaiseFX may implement from time to time.

20.3.1 “Close at Loss” means an offer to close a transaction at a price determined in advance by Customer which, in the case of a transaction that is opened by offering to buy a specific number of a certain instrument, is lower than the opening transaction price, and in the case of a transaction that is opened by offering to sell a specific number of a certain instrument, is higher than the opening transaction price.

20.3.2 “Close at Profit” means an offer to close a transaction at a price determined in advance by Customer which, in the case of a transaction that is opened by offering to buy a specific number of a certain instrument, is higher than the opening transaction price, and in the case of a transaction that is opened by offering to sell a specific number of a certain instrument, is lower than the opening transaction price.

20.4 Upon Customer's offer and RaiseFX's acceptance of an order, Customer hereby authorizes RaiseFX to close the transaction at the Close at Loss price or Close at Profit price, as applicable, and as agreed upon in the order, without further instruction from or notification to Customer.

20.5 RaiseFX may, in its sole discretion, close the transaction when the price quoted by RaiseFX on the trading platform equals the price accepted by RaiseFX for such an order.

20.6 Customer acknowledges and agrees that RaiseFX shall not be obligated to close a transaction which does not otherwise comply with any other limitations agreed upon with respect to such transaction.

20.7 Customer acknowledges and agrees that due to market volatility and factors beyond RaiseFX's control, RaiseFX cannot guarantee that a

PLATFORM SERVICES GENERAL TERMS AND CONDITIONS

Close at Loss order will be executed at the level specified in Customer's order. In such an event, RaiseFX will close the transaction at the next best price.

20.7.1 The Customer is responsible to ensure that the trading conditions offered by the Broker are compliant with their personal situation.

20.8 If, before Customer's "Limit Order" offer to open or close a transaction is accepted by RaiseFX, RaiseFX's quote moves to Customer's advantage (for example, if the price goes down as Customer buys or the price goes up as Customer sells) Customer agrees that RaiseFX will execute the closing transaction at the Customer's specified price and not better. Customer agrees that RaiseFX can retain such price movement for its own account.

20.9 The Customer is aware that a part of RaiseFX's revenues derives from the spreads on each transaction. The spread is the difference between the bid & the ask price of the price quote on a transaction. Therefore, in case the fair market price reduces RaiseFX's spread in a specific transaction, RaiseFX may, at its sole discretion, choose not to execute such transaction, in which case RaiseFX may send Customer an amended quote for his consideration. RaiseFX may complete a transaction at its sole discretion in case the fair market price does not affect RaiseFX's spread from the transaction and / or increases it.

21. RISK ACKNOWLEDGMENT

21.1 Customer acknowledges that investment in leveraged and non-leveraged transactions are speculative, involves a high degree of risk, and is appropriate only for persons who can assume risk of loss of their entire margin deposit.

PLATFORM SERVICES GENERAL TERMS AND CONDITIONS

21.2 The Customer understands that because of the low margin normally required in OTC trading, price changes in OTC may result in significant losses.

21.3 Customer warrants that Customer is willing and able, financially and otherwise, to assume the risk of OTC trading, and in consideration of RaiseFX's carrying his/her account(s), Customer agrees not to hold RaiseFX and any of its subsidiaries, affiliates or agents responsible for any losses incurred by Customer.

21.6 The high degree of leverage that is obtainable in the trading of Forex, CFDs, Options and Spread Betting transactions can work against you as well as for you. Leverage can lead to large losses as well as gains.

21.7 CFDs are complex instruments and come with a high risk of losing money rapidly due to leverage. The current percentage of retail investor accounts who lose money when trading CFDs can be found on our homepage at any time You should consider whether you understand how CFDs work and whether you can afford to take the high risk of losing your money.

21.8 During times of extreme volatility it can be difficult or impossible to execute orders.
